1996-now	PT Insan Infonesia	Bandung, Indonesia
----------	--------------------	--------------------

Director of Technology

- Handling the technology development including hardware & software development, Intranet solutions, telecommunications, and other high-tech incubators and ventures.

1996-1997	TRLabs	Winnipeg, Canada
-----------	--------	------------------

Post-doc researcher at Telecommunications Research Laboratories

- Research in the field of Network Computing
- Developed “Web-based Virtual Storage Environment” for Network Computers (such as the Javastation, WebTV, and other set-top boxes).

1996-1997	Electrical and Computer Eng., U of M	Winnipeg, Canada
-----------	--------------------------------------	------------------

Teaching staff

- Taught “24.422 *Switching Theory*” for fourth-year students in the Electrical and Computer Engineering Department of University of Manitoba, Canada.

1995-1996	TRLabs	Winnipeg, Canada
-----------	--------	------------------

Graduate Student Researcher

- Modeling computer protocol (multimedia protocol) and hardware (an asynchronous CounterFlow Pipeline Processor) in SDL.

1989-1996	Computer Services, U of Manitoba	Winnipeg, Canada
-----------	----------------------------------	------------------

UNIX System Administrator

- Responsible for software in the UNIX systems used by most students.
- Part of the World Wide Web team development

1987-1997	Electrical and Computer Eng., U of M,	Canada
-----------	---------------------------------------	--------

System Administrator and Research Assistant

- Responsible for UNIX system software, such as sendmail, for the whole Department.
- Responsible for VLSI CAD Tools such as Synopsis. Developed tutorials for some VLSI CAD Tools, including VXI-based test systems.

1989-now	Internet and network duties	Internet
----------	-----------------------------	----------

Sysadmin, webmaster, manager

- Vice President, Research and Development, Global Network Communications (San Francisco, USA)
- Director of Technology, Hardware & Software Developer for PT Insan Komunikasi (Bandung)
- Director of Technology dari Indonesia Forum [USA], a cybercommunity forum for Indonesians
- Domain admin for various web sites: Bandung High-Tech Valley, Indonesia Forum, Global Network Link, Bohol Network, Airland, Isnet, Insan Infonesia, Indonesian Homepage, IDNIC, IDCERT, and many other web sites.
- Maintenance of several mailing lists, including PAU-MIKRO mailing list which was founded in 1987 and still a “de facto” mailing list to discuss Internet and computer technology in Indonesia.
- Member of Paguyuban ITB-net, Campus Backbone.
- 1989-1997 - Maintener of Bison UUCP Network (Manitoba, Canada) which provided free e-mail and Usenet news to hundreds of users in Winnipeg, Canada.

Formal Education

Interests

Computers (hardware, software, networks, operating system, programming languages, information security, human-computer interaction, multimedia, intelligent agents, eCommerce), reading, music (including computer music), travelling, high-tech business, and teaching.

Skills

- Programming in C, C++, SQL, Perl, Java, Tcl/Tk, sh, and some assembly languages
- Document processing with HTML, TeX, LaTeX, troff (groff)
- Telecommunications and VLSI designs with SDL, PROMELA, VHDL, and Verilog. I have "Logic Synthesis with VHDL" and "VHDL System Simulation" certificate from Synopsys and Canadian Microelectronics Corporation (September, 1994).
- Internet design and programming (World Wide Web, Gopher, FTP, and other information systems) and security
- Ability to install and manage UNIX systems (SunOS, Solaris, Linux, FreeBSD, HP, OSF/1)

- Smartcard programming. I have completed smartcard training "*Foundation SmartCard Tech, MPCOS, and GPK Training*," Gemplus, Jakarta, 20-23 July, 1999.

Achievements

- Manage "The Ultimate Indonesian Homepage", **the first and most comprehensive Indonesia web site. (Directhit reported number one on their list.)** Previously it was located at the University of Manitoba, currently it is located at <http://indonesia.insan.web.id>
- Designed and deploy security system for the on-line result (high performance web site) of Indonesian 1999 Election. (May - August 1999). The system is capable of handling 1 million web requests per day (limited by 1999 technologies).
- Designed and deploy RI-Net: one of Telematika Indonesia's flagship applications which provide open email to Government officials, and web site (1997-1999).
- Author of "Memahami Teknologi Informasi: Menyikapi dan Membekali Diri Terhadap Peluang dan Tantangan Teknologi Informasi," Elex Media Komputindo, 2002.
- Author of "*Buku Pegangan Sistem UNIX dan Internet*," 1994, Open Pathways (USA). (2nd edition is available in Indonesia)
- Designed and implemented "UMUID", a Global Userid Database for Computer Services University of Manitoba, Winnipeg, Manitoba, Canada.
- Developed some free utilities and programs (available over the Internet) which can be used to manage e-mails and mailing lists. Examples are ASER and b-server (mail-based archive server), brn (threader news reader), lpctool (lpc printer controller for X window)
- Was a maintainer for official perl for MS-DOS

Organization Achievements / Affiliation

- Member of "Panitia Teknik Perumusan Standar Nasional Indonesia (SNI) Transaksi Informasi Melalui Media Elektronik," Kementerian Komunikasi dan Informasi, 2004. (No: 41A/KEP/S.KOMINFO/7/2004.)
- Member of The Institute of Electrical and Electronics Engineers Inc. (IEEE), the largest professional electrical and electronics engineers organization in the world.
- Was the president of Indonesian Students Group (ISG), Winnipeg, Manitoba, Canada
- Member of "Majelis Syuro ISNET", Islamic Network, the first Indonesia cyber community (1980s).
- President of "Himpunan Mahasiswa Teknik Elektro", Institut Teknologi Bandung (HME ITB), Electrical Students Association, 1984.
- SMAN 1 Bandung, OSIS and Autodidac discussion group
